

ALL ABOUT OAK

## OAK OVER FIVE GENERATIONS

To meet our customers' expectations, we have succeeded in improving our expertise by selecting and acquiring state of the art technological innovations.

Still set in the heart of the forests of Orne in Normandy, our sawmill exports its oak all over Europe and overseas.

## PEFC CERTIFICATION: AN ECO-LABEL

All the PEFC certified parties involved in the forest trade endeavour to promote sustainable management of forests in their regions and to guarantee the implementation of internationally recognized common standards and criteria.

## MORE THAN 15 000 CUBIC M OF OAK LOGS PROCESSED PER YEAR

Our sawmill offers:

- any kind of boules (random widths and lengths)
- square edges from Kiln Dried Boules
- square edges for flooring
- oak beams cut to size
- dock blocks and sleepers, industrial beams

## A DRYING CAPACITY OF MORE THAN 1700 CUBIC M

- 1 pre-dryer of 1000 m<sup>3</sup>
- 9 traditional dry kilns of 700 m<sup>3</sup>
- 1 vacuum kiln of 40 m<sup>3</sup>

## YOUR STOCK IN REAL TIME

As more flexibility is always our target, we put at your disposal what our stock is in real time.
